### ERRATUM PART 2

#### P20 Table 2 Correlation Between English and Hebrew Sounds

English letter	English Written Form	English phonetic pronunciation	Numerological Value
F	Peh	Pay	17

#### p304 Non-written English and non-English phonetics

If you have non-written English and/or non-English phonetics in your birth certificate name, you need to convert them into the equivalent English pronounced as it is written for the allocation of Hebrew phonetic sounds for proper analysis. This process is under continual development. For that reason and due to space limitations, go to: [centerforconsciousascension.net](http://centerforconsciousascension.net) To undertake this, click on 'Books', then on 'Your Soul Contract Decoded'.
